
Jade Chung

Data Analyst

Nevada, 89002 | (702) 713-1435 | [Jade Chung](#) | [LinkedIn](#) | [JadeChung\(github.com\)](#)

EDUCATION

- Western Governors University | **Master of Science Data Analytics** 01/21-
 - Cumulative **GPA**: 4.0/4.0
- Promineo Technology | **Back End Engineer** 06/21 - 10/21
 - Java
 - Oracle SQL
 - Spring Boot
 - REstful API
- Nevada State College | **Bachelor's of Science BA/Accounting** 08/2014 - 05/2018
 - Business Club
 - Accounting Treasury Member
 - Mathematician Club

SKILLS

Programming Languages: • Python • R • Java • SQL

Database & Technologies: • PowerBI • Tableau • SQL Server • Snowflake • MS Azure • Microsoft Excel • Spring boot • AWS • JWT(JSON Web Tokens) • REST • JPA • Slack

Leadership: • Teach and Mentor • Analytical and Goal-Oriented • Effective Communicator and Active Listener • Problem-solver • Trustworthy • Community Advocate

Languages: English, Japanese

EXPERIENCE

- Coding Instructor | Code Your Dreams** 09/21 - 12/21
 - Collaborated with non-profit organization After School Matters(ASM) to help Young Adults build their own app for the community using MIT's App Builder for 10 weeks.
 - Instructed young adults three times a week on fundamentals of coding, databases, and technology.
 - Contributed to each student developing an app that provided relief to gaps in socioeconomic community standards.
- Back End Engineer | Promineo Technologies** 06/21 - 10/21
 - Collaborated with 2 other student developers to create a school administration relational database system that could perform all CRUD operations through a UI/Menu in Java/Eclipse.
 - Solely created entity related diagram and inputted all data in the school administration database using SQL queries
 - Successfully coded Menu with other student developers to access information through Interface.
- Data Analyst Intern | Sutherland Global** 08/20 - 05/21
 - Collaborated between finance departments and investigated over 50 accounts daily with balance errors using accounting software.
 - Utilized data cleaning programming such as R and Python to standardize, enrich, and check data. Enacted the Data Analytics Life Cycle to reformat data and present to stakeholders
 - Identified and analyzed rejection patterns, partial denials and denials from third parties, through visualization presentation in Tableau. Improved existing processes and reduced processing time by 15%.
- Native English Teacher | Amity English School(Japan)** 07/18 - 01/20
- Community Tax Advocate/Preparer | Nevada State College** 08/17 - 05/18
